Hand Wash

- “ Use cool water (85F / 27C) and mild soap or hair shampoo
- “ Never use chlorine bleach. Woolite is not recommended. Remove any excess water carefully, avoiding any wringing or twisting.
- “ Dry the product in a flat position in the shade. Block the product, reshaping it to its original dimensions.
- “ By hand, carefully remove any wrinkles and straighten seams and facings. Never use a brush
- “ After the product dries, touch up with a cool iron as needed

Dry Cleaning

- “ If you have a several pieces of an outfit, we recommend that you clean it at the same time to avoid color discrepancies after the washing process.
- “ Inform the cleaner of any spot or stains
- “ Ask the cleaner to use a fresh solvent in low heat and a process that does not involve tumbling
- “ It is recommended that you go to a dry cleaner that has previously dealt with Alpaca products before.

Storing and Preserving your product

- “ Before storing, make sure that the item is fully dried.
- “ There are various techniques to avoid damage resulting from the presence of moths. It will be better if you store the product in a sealed cedar chest, a freezer (in a zip lock bag or any moth protected environment.
- “ Sachets using dried lavender are also useful. We do not recommend the use of mothballs.
